Claims 1-3 are statutory.

Claims 9and10 would be statutory if the spec does not define the computer readable medium as

a transmission medium (carrier wave etc.).

Claim 11 is a 112.

A computer can not carry out a system

Hi,

I am asking for your judgement on this matter base on what my SPE wants, for me to document that i seeked consultation and confirmed there aren't any 101 issues.

can you please look at claims 1-3 and 9-11 for 101 issues because there are calculation methods involved but provides the service through a network.

thank you.
